

Accessing Videos and Saving them for viewing

8/25/2013

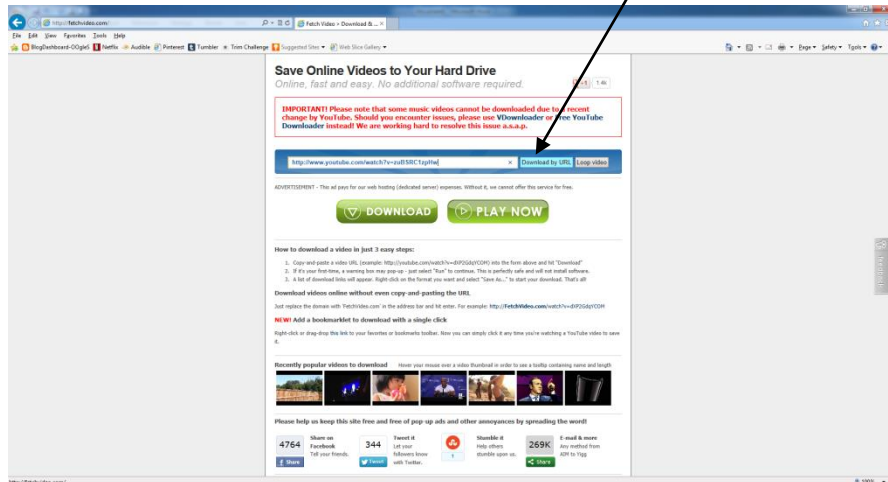

Open the Youtube.com/education site. (www.youtube.com)

Find the video by searching. (a link to youtube videos sometimes is blocked by our filter, so you need to go to Youtube first, then search for the video).

Copy the URL once you start the video.

Open <http://fetchvideo.com/>

Paste the URL into the box. Press **DOWNLOAD BY URL**.

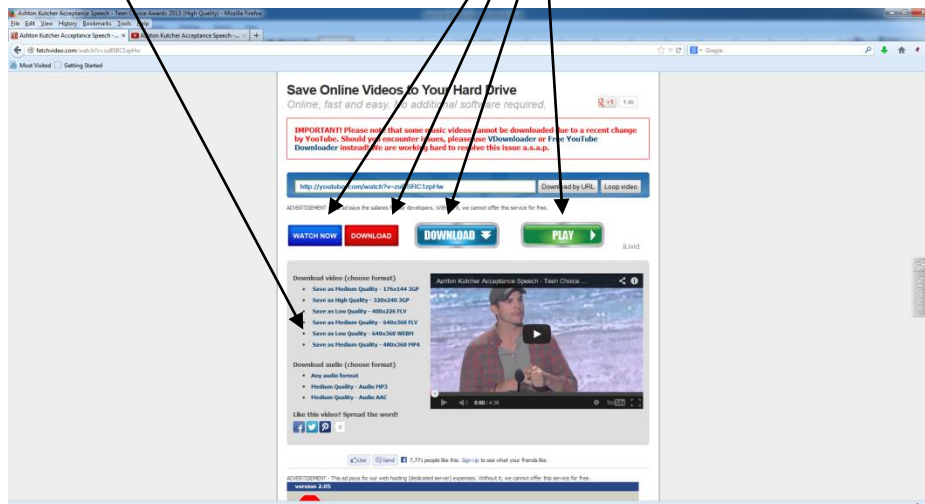

Do you want to run this application? Say RUN.

A gray area comes up asking you to choose a video format.

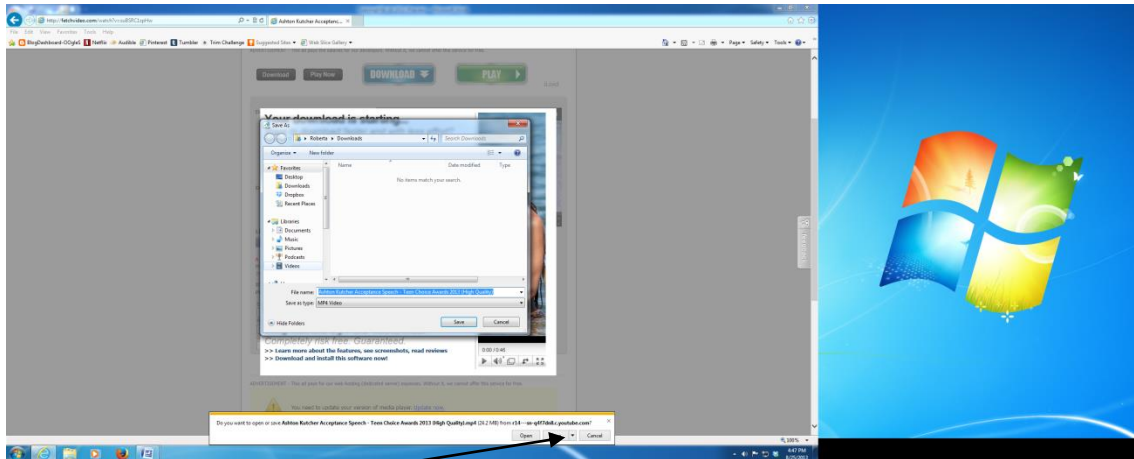

Choose format (MP4)

Do not click on these links at all (ads).

Accessing Videos and Saving them for viewing

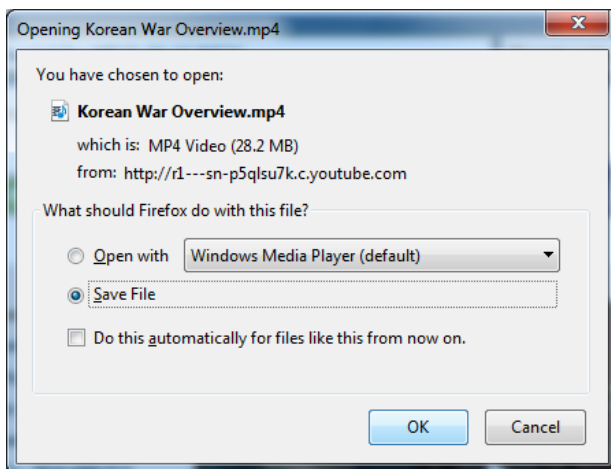

8/25/2013

Save As using the drop down arrow.

Choose "Videos"

Or you may see:

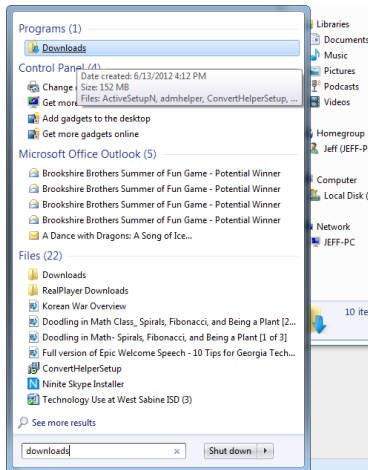

Choose OK

Once video has completed downloading, go to "DOWNLOADS"

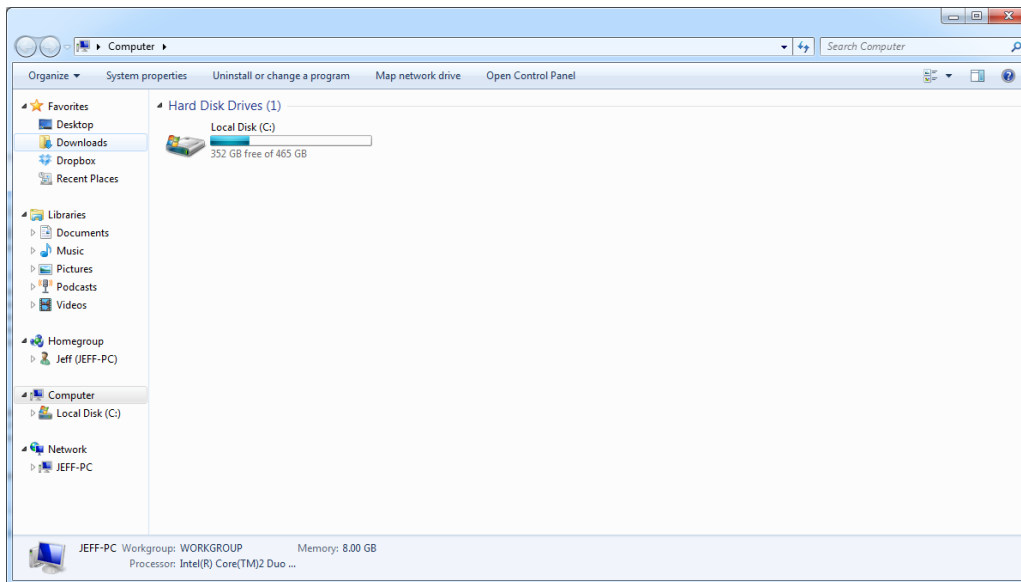

Accessing Videos and Saving them for viewing

8/25/2013

Or

Start, Computer, Downloads (under FAVORITES)

Choose the file and play it from “downloads” or copy and paste it to your desktop or documents folder or any where you want to save it, except do not save videos in your U: drive or network folder. There is not enough storage space on the network.
